

Vehicle Acquisition and Leasing

New Application on the Block!

Now GSA Fleet customers can enter vehicle mileages AND generate vehicle inventory reports with one visit to our website www.fss.gsa.gov/mileageexpress. How is this possible? Our newest addition to GSA Fleet Drive-thru – REPORTS CARRYOUT – has arrived! With Reports Carryout, GSA Fleet customers can generate vehicle inventory reports on the internet, whenever the need arises. Also, no additional user codes/passwords are needed for Reports Carryout ... they're the same as the ones for Mileage Express! Reports can be generated by customer number, BOAC number, or agency number and will contain the following standardized information:

Class and tag number
Region, Fleet Management Center, and Sub-fleet Management Center
Make, model, and year of vehicle
Average monthly mileage
Current monthly mileage
Equipment code
Fuel type
Vehicle point of contact, location, and telephone number

The requested report will be delivered to GSA Fleet customers within 24 hours via fax or emailed in a text format that can be opened in Microsoft Word or Excel. Information on our GSA Fleet Drive-thru applications, Mileage Express and Reports Carryout, can be obtained by contacting Susanne Combs, GSA Fleet Drive-thru Coordinator, at (703) 308-1435 or email, susanne.combs@gsa.gov.

GSA can...

Turn your car, van or truck into a "Mobile Office"

Let GSA help you, the traveling customer, enjoy some helpful conveniences between office sites. We have exactly what you need. The AutoExec, Navicase and Wheelmate by GoOffice.Com. These products are on GSA Schedule 25 I A, Vehicular Equipment and Accessories under Contract No. GS-30F-0018J. **Transform any vehicle into a "Mobile Office"!**

- The **AutoExec** converts any vehicle into a mobile office. It offers the following features: a spacious work surface, a storage area which can hold a computer, planner and a cellular phone and storage compartments which was small tools and supplies such as files, a calculator, pencils and notepads.
- The **Navicase** attaches to the steering wheel of a parked vehicle to create a self-supporting computer work station. It also secures to your luggage cart for easy transport in and out of airports.

- Finally, the **Wheelmate** which hangs on the steering wheel of a parked vehicle is ideal for the smaller things, like lunch! It has a space provided to hold your beverage while still providing adequate space for writing or using small necessities such as calculators and organizers.

All of these products are available through the Vehicular Equipment and Accessories Schedule which will be incorporated into the new 23V, Vehicular Multiple Award Schedule (VMAS) effective October 1, 1999.

If you would like a brochure and pricelist on this product or just have questions, please contact Christy Cousin on: 703-305-3097, (Fax) 703-305-3034, or (e:mail) Christy.Cousin@GSA.GOV or the **Customer CARE and Marketing Branch** on (703) 308-CARS.

"AND THEN THERE WAS ONE" "VMAS"

The Automotive Division has merged eight schedules into one! Federal Supply Schedules 23 I A, 23 II, 25 I A, 25 II B, 25 III C, 38 I A, 38 II B, and 42 IV have been merged into a single Schedule to be known as the **"VMAS" (Vehicular Multiple Award Schedule, FSC 23, PART V)**. "VMAS" will provide our customers with a single Federal Supply Schedule source for the procurement of Automotive and Construction Equipment products and related services, and will eliminate redundant schedule contracting efforts by both industry and the Government.

"VMAS" will be more user friendly for customers by minimizing the number of schedules they will need to research. Customers are encouraged to review Schedules at our Schedules E-Library at <http://www.fss.gsa.gov>. The E-Library provides day-to-day updates on existing contracts and adds new contracts as they are awarded. It also identifies which contracts can be accessed on **GSA Advantage™**.

For purchasing information please contact the Automotive Division on (703) 308-CARS or contact the following personnel:

Sarah Bailey – (703) 305-6251 - Aerial Lift Vehicles, Digger/Derricks and Cable Placer Vehicles

IFMS Name Change

Good-bye IFMS - Hello GSA Fleet

GSA Interagency Fleet Management System (IFMS) customers can now look forward to receiving the same excellent service under a new name - GSA Fleet. Informally, we have been called GSA Fleet for years so we decided it was time to change. As of June 3, 1999, our name change became official. We believe our new name reflects how our customers think of us and refer to us on a regular basis. We like the approachable feel of the name and hope you will too.

GSA Contact: Barbara Borkowski
Phone: (703) 305-7169
E-Mail: barbara.borkowski@gsa.gov

GSA Fleet Rate Adjustment

Rates for GSA Fleet vehicles will be modified effective October 1, 1999. The new rates for fiscal year 2000 will increase an average of just 2 percent. For the most part, monthly rates will be adjusted upward, while mileage rates will decline slightly or remain the same. GSA Fleet continues to expand, upgrade, and improve services while holding annual rate increases at or below increases in the Consumer Price Index. The fiscal year 2000 rate bulletin is available on the GSA Fleet website at <http://www.fss.gsa.gov>; GSA Bulletin FPMR G-203 is also being distributed to GSA Fleet customers.

Fleet Management Subcenter

Moves to New Location:

The GSA Fleet Management Subcenter in Memphis moved effective August 30. The new office address and telephone number are as follows:
